

## Swisstex Chemicals - Technical Centre (SCTC)

**An ISO/IEC 17025:2005 Accredited Laboratory... now goes Commercial**

Swisstex Chemicals Technical Centre (SCTC), a state-of-the-art textiles technical services facility was developed at a coverage area of 4,500 square feet back in 2005; the Centre is equipped with modern lab equipments together with a highly skilled and professionally dedicated team extending first line technical support to the textile processing valued clients. Irrespective of the demanding nature of the technical inquiries, the facility is capable of providing swift response with cost-effective solutions that fully address the customer requirements.

In our constant pursuit towards enhancing our skills and strictly adhering to the internationally acclaimed standards, Swisstex Chemicals - Technical Centre has successfully been accredited by the Pakistan National Accreditation Council (PNAC) in accordance with the requirements of ISO/IEC 17025:2005 which is a member of MRA, ILAC, APLAC, IAF & PAC. With diligent efforts of 2½ years, achievement of this milestone has placed Swisstex Chemicals – Technical Centre in the list of selected accredited laboratories in Pakistan which are allowed to conduct specific tests conforming with the latest standards of European and American markets for fabrics and / or garments. Additionally, non-accredited tests are also conducted based on customer needs. (For detailed list of tests, please visit our website: [www.swisstex.com.pk](http://www.swisstex.com.pk))

Our endeavor has always remained towards building a continuous and long lasting relationship with our clients by providing them comprehensive and authentic testing solutions in strict application of internationally defined standards. Quality, consistency and credibility have always been our primary objective and in order to sustain them we ensure using standardized materials and equipments from internationally acclaimed vendors. As with any other responsible organization,

Swisstex Chemicals – Technical Centre (SCTC) is also fully aware of its due role towards corporate and social responsibility. We regularly conduct different technical workshops and encourage internship to share with our upcoming graduates, the practical knowledge base which helps them immensely in their professional careers.

SCTC aims to serve as a strategic partner in successful achievement of its client's business objectives. Our efforts would always remain geared up in providing the most cost-effective and dependable solutions that would help you in attaining newer business heights and in the process contribute our due share towards projection of a responsible business facility for Pakistan's formidable textile sector. ♦
